

Controllers made simple for you !

Heating and Cooling Control

Ideatec's systems integrate perfectly the control of the heating and cooling

UniTherm

TEMPERATURE SENSOR INCLUDED !

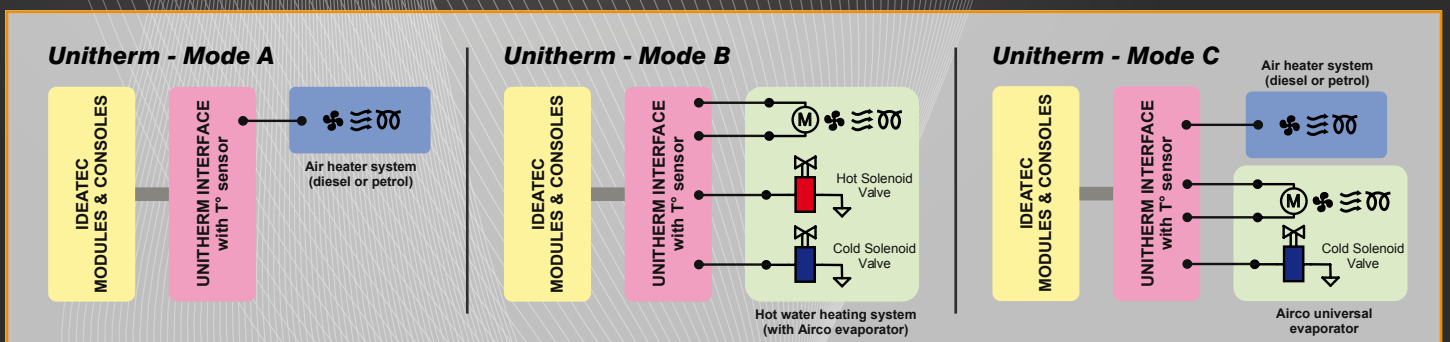

Compatible with MC-Duo and Canris Systems

The UniTherm interface is compatible with the majority of heating & air-conditioning systems available.

Operating Voltage	Solenoid valve control	Solenoid valve current	Motor PWM output	PWM max. current	Operating temperature	Weight	Dimensions L x l x h	EMC
from 10 to 28VDC	2	1A (each)	1	20A	from -25 to +60°C	75 gr.	94 x 73 x 26	e6 03 03 29

Due to technological advances, the manufacturer reserves the right to modify the characteristics of this product without notice.
